Manage Quantity and Quality of Grain directly from the combine

SIM CARD SUBSCRIPTION

An optional SIM Card Subscription simplifies the user connection process between the CropScan display and the CropScanAg Cloud. The SIM card is pre installed to the CropScan display and maintains a 12-month internet connection for data syncing, software and calibration updates. The user can renew the subscription via their dealer.

SIM Card Subscription Kits include, SIM Card and 12 month data plan. Renew and activate SIM Cards via the CropScanAg Cloud Web Portal. (Australia Only)
